

ACCREDITATION MANAGER Compliance Made Easy

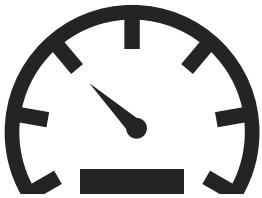

Our Packages

Accreditation Manager offers several cloud based management systems for managing bus compliance obligations in a more effective and efficient manner.

Each package addresses different aspects of bus compliance and is tailored to your business.

Since the system is customisable, this means *you only pay for what you need*.

Package 1: VMD (Tachograph) with 531 Compliance Certificate

Together, our app and the TomTom PRO 8275 maximise management capabilities and operational efficiency whilst minimising costs.

This cloud based management system includes paperless driver records (including pre-departure and end-of-shift declarations) and the option of real-time tracking.

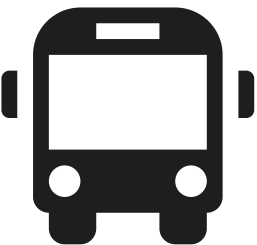

Package 2: Driver Management

Accreditation Manager's Driver Management system focuses on monitoring & managing your drivers and ensuring their qualifications & training are always up-to-date.

This package includes your formal *Training Register*, *Driver's Register* and other legal documents (including Application for Employment, Enlistment, Anti-Bullying Policy, Drugs & Alcohol Policy and Driver Training).

Package 3: Vehicle Management

Your vehicle service documents are conveniently delivered in a single email alert; receive online notifications 'just-in-time' with your vehicle's service sheet attached.

Our system includes compliance critical documents relative to *Vehicle Management*, specifically Vehicle Reports, your formal Maintenance Management System (MMS) document, Roadworthy Inspection Reports and Repairer's Register.

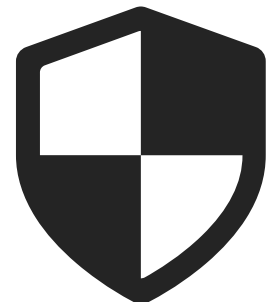

Package 4: Compliance Essentials

All of your compliance essentials in one package. Accreditation Manager transforms your compliance obligations into 'click-fix' solutions.

Our cloud based management system for Compliance Essentials is always up-to-date and addresses all your compliance obligations, including Driver Management & Vehicle Maintenance Management.

We tailor the system to *your specific needs*. This package includes various Reports, Registers, Statistics and Reviews required for safe and legal operations. In addition, our systems have been certified to the AS/NZ: 4801 Standard.

Managing your compliance has never been this easy!

Compliance Made Easy

Our Packages

Package 5: Improved Driver Performance

Driver performance is key to safe and efficient operations.

Our system, using the TomTom In-Vehicle-Unit, has provided an industry specific system which streamlines bus compliance processes.

As a result, Accreditation Manager offers state-of-the-art solutions that provide:

- drivers the information and security they need to drive safely and economically
- businesses the knowledge and insight they need to make evidence based decisions with minimum downtime

Training Packages

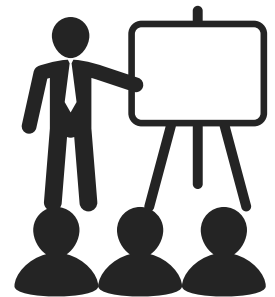

Package 6: Compliance Training* for Middle Managers

Accreditation Manager offers a *Compliance Training Course* for middle managers employed by Bus Operators.

10 hours, over 1 or 2 days (flexible delivery options).

This specialised course includes:

- Chain of Responsibility
- Risk Assessment
- Incident Investigation
- Driver Training
- KPI & Compliance Reports
- Compliance Reviews
- Vehicle Maintenance Management
- Compliance Critical Requirements

** This course is not part of the National Australian Qualifications Framework (AQF); No formal qualification is obtained from this course.*

Package 7: Bus Driver Authority Training (NSW Bus Drivers)

Accreditation Manager offers the NSW Bus Driver Authority training course.

The training course is nationally accredited and has been approved by Transport for NSW.

Accreditation Manager is able to provide the training and assessment required to qualify for a Bus Driver Authority.
